

ROMANS RANCHES CHAROLAIS

PRODUCTION SALE MARCH 12, 2024 1:00 P.M.

— Join us at the Ranch in Westfall, Oregon —

Romans Ranches Charolais Production Sale

We'd like to welcome you to the 18th annual Production Sale of Romans Ranches Charolais!

What a year 2023 turned into for selling feeder calves. With all-time highs in the industry, we hope you were able to take advantage and cash in while the market was high. Rolling forward into 2024 looks like the continued demand and need for quality beef is still going strong. We believe the Bulls we

have to offer will continue to meet those demands. We invite you to take a look at this year's offering!

New this year we are offering a strong set of Two-Year-Old bulls to sell alongside the Long-Yearling and Yearling bulls. These Two-Year-Old bulls are not leftovers. They come from the top half of 200 bulls within their contemporary group and have as much performance and quality as the rest of the offering. We are pleased to bring you the best we have to offer, with most bulls well above breed average for growth and carcass merit.

I am here to advocate for the Charolais breed! We invite you to keep being identifiable in your breeding program as the need for Charolais cross calves is strong. The need for heterosis in a breeding program for improved health and increased weaning and carcass weight is real. There are different marketing options available to give added value to your Romans Charolais sired calves. Feel free to give us a call and we will help connect you with our cattle buyers.

Our commitment is to serve you by selecting herd sires that will continue to increase weaning weight, feed conversion in the feedlot, and Choice and Prime grades hanging on the rail. Our bulls are still raised outside on the desert where their feet and structure are put to the test. These bulls also learn to adapt to the same elements as your cow herd, giving them added longevity on the range. As always, we will continue to guarantee our bulls through the first year.

We are excited to see you sale day!

The Romans and Jacobs Families

Sale Date & Times

Tuesday, March 12, 2024

Sale at 1:00 pm MST Lunch at 11:30 am

Preview

Bulls will be available for preview at any time, give us a call!

Herd Health

All bulls have passed a fertility evaluation and structural soundness exam by Dr. Angie Allum of the Vale Veterinary Clinic. All bulls are guaranteed to be reproductively sound. Health Certificates will be available sale day for out of state buyers. All bulls will have a negative Trich Test for entry into any state. Call Jeff Romans or Dr. Angie Allum if you have any questions.

Terms & Conditions

All cattle will sell under the terms and conditions suggested by the American International Charolais Association. All purchases are to be settled for on sale day by cash or bankable check unless prior arrangements are made. All supplements to the sale book or announcements made from the block take precedence over what is written in the sale book.

Feed & Delivery

There will be a \$50 credit/bull on bulls that are picked up on the day of the sale. We will offer free delivery to central locations in surrounding states.

Guarantee

Romans Ranches Charolais guarantees all bulls through the first year of service. A replacement bull of equal value or credit towards next year's sale purchase will be extended. Any salvage value of the guaranteed bull shall belong to Romans Ranches.

Liability

All persons attending this sale do so at their own risk. Romans Ranches Charolais, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

Semen Interest Conditions of Sale

Romans Ranches Charolais will retain 1/3 revenue-sharing semen interest in all bulls sold. The buyer gets full possession of the animal and 2/3 revenue-sharing interest.

Romans Ranches Charolais Production Sale

EPD EXPLANATION

Here is a definition of the Expected Progeny Differences (EPD's) used in the catalog. EPD's express the genetic transmitting ability of a sire on how his offspring are expected to perform relative to other sires in the analysis for a given trait. An EPD is said to be up to 10 times more accurate in predicting how a sire's offspring will perform compared to their actual data.

CE	Calving Ease - % of unassisted births when the bull is bred to 1 st calf heifers. The higher value is best.
BW	Birth Weight - Difference in the average birth weight of progeny.
WW	Weaning Weight - Difference in the average weaning weight of calves. (205 day adjusted)
YW	Yearling Weight - Difference in the average yearling weight of calves. (365 day adjusted)
MLK	Milk - Expressed in pounds of weaning weight of daughter's maternal instinct and milk.
CW	Hot Carcass Weight - Predictor of pounds of retail product at a constant age endpoint.
REA	Rib Eye Area - Square inches of rib eye at the 12 th rib.
FAT	Fat Thickness - Inches of back fat over the 12 th rib. Less fat results in lower yield grades.
MARB	Marbling - Subjective measure of the amount of intramuscular fat in the rib eye muscle.
TSI	Terminal Sire Index – Combines all EPD's into one single value ranking for profit potential. (It does not include feed efficiency data in this formulation)
\$FCP	Feeder Calf Profitability - Considering value of all growth performance, feed yard, and carcass traits.
ADG	Average Daily Gain – Difference in post weaning average daily gain.
FI	Feed Intake – Measurement of dry matter intake.
RFI	Measurement of deviation of actual intake from expected intake considering an animal's metabolic weight and gain. More negative numbers are favorable.

The fall bulls yearling information is a calculation of ADG while on grass from June through mid Oct. The ADG measurement was taken from Oct 23rd to February 8th while receiving a TMR in the feedlot. Bulls were fed to gain 2.5 lbs. per day.
