

ROMANS RANCHES CHAROLAIS

PRODUCTION SALE MARCH 24, 2026 1:00 PM MST

—— Join us Online or at the Ranch in Westfall, Oregon ——

Romans Ranches Charolais Production Sale

On behalf of The Jacobs family and Romans family, we'd like to welcome you to our 20th Annual Production Sale of Romans Ranches Charolais. Reflecting on the past 20 years in the bull business has given us a great sense of gratitude and appreciation for you, our friends and customers. Thank you for putting your faith and trust in Romans Ranches Charolais genetics to build and improve your herd's genetics.

With this reflection, we see the strides we have taken to produce some of the most feed efficient cattle in the Charolais breed. With 16 years of RFI data on our bulls, and by selecting the top feed efficient herd sires from this data, we can see the difference and transformation our cow herd has made. Our cows are thriving on the range, holding their flesh throughout the year, and weaning a bigger calf than when we started because of this genetic selection. One of the greatest compliments we receive is a phone call about how well the bulls you purchased have held up during the breeding season and how well they maintain their flesh year-round. It is proof that with this selection and raising these bulls in a similar environment to where you run your cows, we are helping to improve the longevity of the bulls and feed efficient calves in the feedlot.

We continue to put an emphasis on high growth and top end marbling genetics. The last set of purebred Charolais heifers we killed last fall went 22% Prime and 78% Choice. We will continue to make strides to increase quality grade and tenderness in your calf crop. We would like to thank Dr. Randall Raymond and Simplot Precision Genetics. They help to ensure that we are identifying the DNA markers that allow us to make improvements in this area. Most of the sires of the bulls in this offering have 60 kill data progeny recorded to their name. This information helps us to make breeding decisions that will shape the future as we strive to raise the most profitable bulls the industry can find. This information will be expressed in the \$FCP EPD's listed with each bull offered. This is a tool to use in your evaluation to help ensure accuracy in the genetics of a bull as you match it to his physical performance and profile.

We welcome back Blake Tucker this year as the sale format will be broadcast on Live-Ag.com. Be sure to reach out to Blake if you need help registering online.

We encourage you to bring your trailer on sale day to take advantage of the \$100 rebate per bull.

Join us March 24th to review the offering. The usual Tri-tip lunch will be served at 11:30 am and the Bull Sale will begin at 1pm MDT. Please call with any questions or if we can assist in any way.

See you Sale Day!

Romans Ranches crew

Sale Date & Times

Tuesday, March 24, 2026
Sale at 1:00 pm MDT Lunch at 11:30 am

Preview

Bulls will be available for preview at any time, give us a call!

Herd Health

All bulls have passed a fertility evaluation and structural soundness exam by Dr. Angie Allum of the Vale Veterinary Clinic. All bulls are guaranteed to be reproductively sound. Health Certificates will be available sale day for out of state buyers. All bulls will have a negative Trich Test for entry into any state. Call Jeff Romans or Dr. Angie Allum if you have any questions.

Jeff Romans (541) 212-2223
Vale Vet Clinic (541) 473-3231

Sale Location

At the ranch in our Sale Barn.
3740 Old Stage Rd. Westfall, OR
Proceed 9 miles North of Harper on the Westfall-Harper Road.
Turn right on Dahle Road. After 2 miles turn left on Old Stage Road.
Proceed 1/2 mile to the sale site.

Supplement sheet will be available sale day.

**For more detailed bidding instructions see our website
or the website below:**

Terms & Conditions

All cattle will sell under the terms and conditions suggested by the American International Charolais Association. All purchases are to be settled for on sale day by cash or bankable check unless prior arrangements are made. All supplements to the sale book or announcements made from the block take precedence over what is written in the sale book.

Feed & Delivery

There will be a \$100 credit/bull on bulls that are picked up on the day of the sale. We will offer free delivery to central locations in surrounding states.

Guarantee

Romans Ranches Charolais guarantees all bulls through the first year of service. A replacement bull of equal value or credit towards next year's sale purchase will be extended. Any salvage value of the guaranteed bull shall belong to Romans Ranches.

Liability

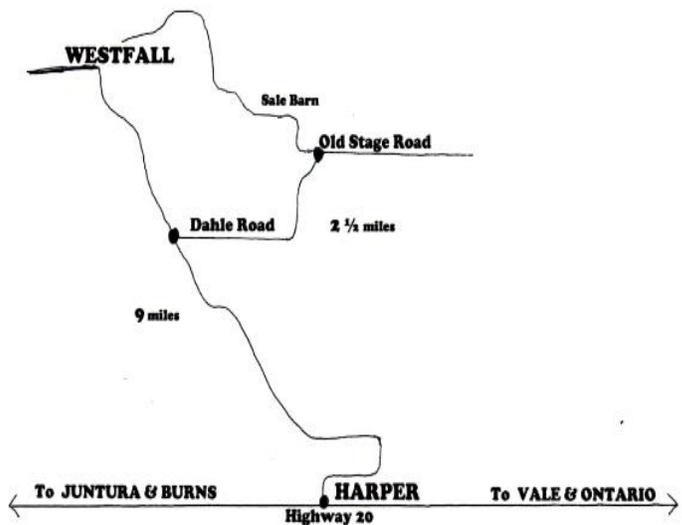

All persons attending this sale do so at their own risk. Romans Ranches Charolais, their staff or representatives assume no liability, legal or otherwise, for any accidents or injuries that may occur.

Semen Interest Conditions of Sale

Romans Ranches Charolais will retain 1/3 revenue-sharing semen interest in all bulls sold. The buyer gets full possession of the animal and 2/3 revenue-sharing interest.

Romans Ranches Charolais Production Sale

EPD EXPLANATION

Here is a definition of the Expected Progeny Differences (EPD's) used in the catalog. EPD's express the genetic transmitting ability of a sire on how his offspring are expected to perform relative to other sires in the analysis for a given trait. An EPD is said to be up to 10 times more accurate in predicting how a sire's offspring will perform compared to their actual data.

CE	Calving Ease - % of unassisted births when the bull is bred to 1 st calf heifers. The higher value is best.
BW	Birth Weight - Difference in the average birth weight of progeny.
WW	Weaning Weight - Difference in the average weaning weight of calves. (205 day adjusted)
YW	Yearling Weight - Difference in the average yearling weight of calves. (365 day adjusted)
MLK	Milk - Expressed in pounds of weaning weight of daughter's maternal instinct and milk.
CW	Hot Carcass Weight - Predictor of pounds of retail product at a constant age endpoint.
REA	Rib Eye Area - Square inches of rib eye at the 12 th rib.
FAT	Fat Thickness - Inches of back fat over the 12 th rib. Less fat results in lower yield grades.
MARB	Marbling - Subjective measure of the amount of intramuscular fat in the rib eye muscle.
TSI	Terminal Sire Index – Combines all EPD's into one single value ranking for profit potential. (It does not include feed efficiency data in this formulation)
\$FCP	Feeder Calf Profitability - Considering value of all growth performance, feed yard, and carcass traits.
ADG	Average Daily Gain – Difference in post weaning average daily gain.
FI	Feed Intake – Measurement of dry matter intake.
RFI	Measurement of deviation of actual intake from expected intake considering an animal's metabolic weight and gain. More negative numbers are favorable.
